## MORE AND BETTER LIVESTOCK

One revelation made by the county fair was the fact that the farmers of Grady county are growing more and better livestock than ever before. Never before were so many fine cattle, horses and hogs entered in a county contest. It was made evident that there has been marked progress in the breeding of a better class of stock during the past year. It would probably be safe to assert that the interest aroused by the county fair itself has had something to do with the development of our livestock industry.

The men who are growing high grade stock are rendering a service of incalculable value to the county. The example which they are setting is bound to have its effect in encouraging others to get into the game and the ultimate result must be to put Grady county on the livestock map in large letters. Grady county is ideally adapted to stock raising and when the requisite degree of enterprise is added to our favorable natural conditions there is no reason why we should take a place second to any in this profitable line of industry. We are moving now in the right direction and if the forces now in motion are kept busy, within a few years we should see the elimination of scrub stock in favor of high-bred horses, cattle and hogs, with a resultant increase in the general prosperity of the county.

## ROAD MEETING SEPT. 25.

Get this in mind: there is going to be another good roads meeting in Chickasha on Monday evening, September 25, at the city hall at 8 p. m. Now there is the date, the hour and the place, so plain that you can't possibly miss it. There was some misunderstanding in regard to the meeting called for last Saturday and consequently the attendance was small.

Another effort is now being made to get a representative crowd from all parts of the county in order to work out a general plan of highway improvement. This time there will be no fair as a counter attraction and it is hoped that nothing will interfere with the program for a great gathering of good roads workers. We cannot expect to accomplish anything looking to large results unless we have concerted action upon the part of Grady county people.

It was noticeable in the meeting Saturday that the other towns, smaller towns of the county, had more representatives present than Chickasha had. Naturally this was the cause of criticism since it left the impression that the county seat was not really interested in the matter. Chickasha business men should resolve to make a better showing at the next meeting.

It will not take long to get a general movement for highway improvement started if the citizens of the county determine to act together in the matter. The mere mention of the

subject should be sufficient to arouse enthusiasm upon the part of the people all over the county. Bad roads are much more costly than good ones. Every day of delay adds to the toll taken by such roads. Let us resolve to make the meeting next Monday evening such a success that it will accomplish the objects which we have in view.

## PUTTING IT UP TO MR. HUGHES

The authors of the Democratic Text-book for 1916 manifest considerable curiosity to know what Mr. Hughes thinks about a number of things. It is quite noticeable that the Republican candidate has failed to make his position plain in regard to most of the matters pertinent to the present campaign, apparently being too busy finding fault with President Wilson to state his own views definitely. The public is still anxiously awaiting light on the following questions which the Democratic leaders have checked up to him:

Do you favor a repeal of the Federal Reserve Act?

Would you have protested against the violation of the neutrality of Belgium and have backed the protest by plunging America into the European carnival of slaughter?

Do you favor repeal of the Rural Credits Act?

Would you have recognized Huerta as president of Mexico?

Do you favor repeal of the Clayton Anti-Trust Act?

Will you, Mr. Hughes, and will the

Republican party in congress, support a law establishing universal compulsory military service in the United States?

Do you advocate repeal of the Federal Trade Commission Act?

Would you have tried the policy of diplomatic negotiation as a means of summoning the moral force of law and neutral opinion to stop Germany's illegal use of submarines?

Do you favor repeal of the "porkless" good roads act?

Would you have broken relations with Germany and sent out young men by the hundreds of thousands to nameless graves at the bottom of the Atlantic ocean or in Flanders before the policy of diplomatic negotiation had had thorough trial?

Will you undertake the repeal of the income tax?

Do you favor violating neutrality and risking the future safety of your country by placing an embargo on munitions of war?

Do you favor repeal of the Agricultural Extension Act?

Do you favor intervention in Mexico?

Do you favor repeal of the graft standards and warehouse act?

What would have been your attitude toward the disloyalists of your party who have attempted to prevent the enforcement by President Wilson, both on the part of the American government and by all American citizens, of an honest neutrality toward all the warring countries of Europe?

Inasmuch as the largest amount collected in any one year under the highest tariff ever enacted (Payne-Aldrich act) was \$335,000,000, what form of taxation would you substitute to pay "preparedness" cost of \$630,000,000?

Do you favor the reactionary Republican plan of granting huge subsidies to favored corporations, money collected from the people by taxation, as the best way of encouraging development of an American merchant marine?

Do you favor repeal of the child-labor law, of the anti-injunction law, the seaman's act and related social justice measures of high importance?

Do you favor re-enactment of the Payne-Aldrich Act?

Do you stand with those progressives and Progressive Republicans in congress who voted for practically all the progressive measures mentioned above, or do you stand with the reactionary Republicans who voted against them?
